

Office municipal
d'habitation
de Montréal

Montréal, November 29, 2022

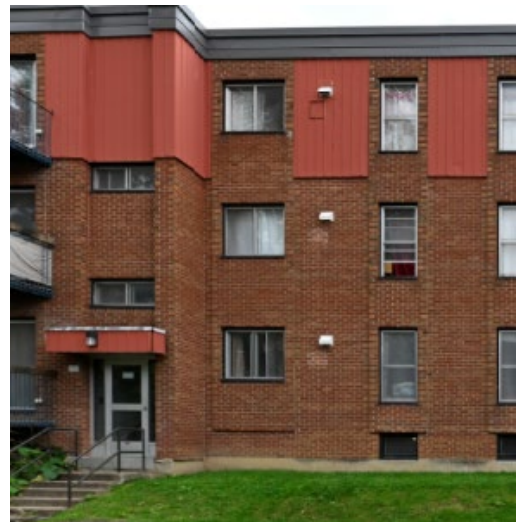

To the tenants of Habitations Workman-Notre-Dame

Work begins in January 2023

We had told you that the work would start in September 2022 and finish in September 2023.

Unfortunately, we had some delays in starting the work:

1. The process to select a **contractor** took **longer than expected**.
2. There is currently a **labour shortage** in construction.

At the end of December, the contractor will begin installing fences around the work area. **Work will begin in January 2023 and finish in December 2023.**

Please read the document sent out in October for full details.

Please contact me if you have any questions.

Thank you for your patience and cooperation!

Questions about the work?
